Front End Web Developer

I develop the websites visuals and the user interactions.

Skills

HTML, CSS, Sass, Javascript, ReactJS, Adobe Photoshop, and Adobe Illustrator

Education

SMCC - South Portland, Maine

Associates in computer science

September, 2020 - July 2022

Capital Area Technical Center

Graphic Design

September, 2018 - June, 2020

I was inducted in the National Honor Technical Society and achieved the highest grade in graphic design class.

Projects

Shaw's Lottery Machine Calculator

I developed a HTML lottery calculator to quickly calculate the amount of tickets in each slot and the price value of each ticket. The service desk clerk or bookkeeper inputs the numbers on the lottery ticket slots and it computes the amount of tickets and the price value. It is integrated in the service desk computer that is used for bookkeeping.

Work Experience

Shaw's - Brunswick, Maine

Checkout Supervisor

August, 2018 - Present

I managed the cash registers, ensuring the checkout is running efficiently.

Accomplishments / Awards

- ★ 1st SkillsUSA Maine Advertising Design
- ★ 4th SkillsUSA Nationals Advertising Design
